The purpose of this All County Information Notice (ACIN) and Mental Health and Substance Use Disorder Services (MHSUDS) Information Notice (IN) is to provide counties, Mental Health Plans (MHPs), Child Welfare Departments (CWDs), and providers with information on the Therapeutic Foster Care (TFC) service model and TFC parent qualifications.

BACKGROUND

In December 2011, the State of California entered into a settlement agreement of the class action lawsuit *Katie A. v. Bontá*. The State subsequently took a series of actions to transform the way children and youth in foster care, or at risk of placement in California's foster care system, access mental health services in a more intensive array of well coordinated, clinically-appropriate, and community-based mental health service settings. One aspect of these settlement activities includes the development of a TFC service model as a way of delivering Specialty Mental Health Services (SMHS) to children and youth.

The TFC service model implementation is effective January 1, 2017.

TFC SERVICE MODEL AND TFC PARENT QUALIFICATIONS

The TFC service model allows for the provision of short-term, intensive, highly coordinated, trauma-informed and individualized SMHS activities (plan development, rehabilitation and collateral) to children and youth up to age 21 who have complex emotional and behavioral needs and who are placed with trained, intensely supervised, and supported TFC parents. TFC is intended for children and youth who require intensive and frequent mental health support in a family environment.

TFC parents will work under the supervision of a TFC Agency who will recruit, train and oversee TFC parents. Specifically, TFC parents will provide TFC services under the direction of a Licensed Mental Health Professional (LMHP) who is able to direct services and is employed by the TFC Service Model Agency (TFC Agency).

The "Service Delivery Through the Therapeutic Foster Care Service Model" and the "Therapeutic Foster Care Service Model Parent Qualifications" are included as attachments to this ACIN/IN¹. These documents will be posted on the Department of Health Care Services' (DHCS) and the California Department of Social Services'

¹ These documents were previously released in draft as attachments to ACIN I-52-16E/IN 16-031E dated August 16, 2016.
